for Messrs: Papeteries du Léman  
Route D'Evian - BP 43  
74202 Thonon les Bains  
FRANCE

---

product: Primabake

The paper grade manufactured by the company mentioned above was tested by us for compostability.

The results are summarized in test report no. 14842/7 of 30 November 2020 issued by ISEGA Forschungs- und Untersuchungsgesellschaft mbH Aschaffenburg, Germany.

The named product meets the demands on packaging materials of the

*EN 13432 'Requirements for packaging recoverable through composting and biodegradation - Test scheme and evaluation criteria for the final acceptance of packaging', state of Dec. 2000,*

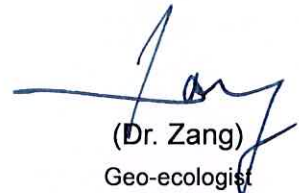

regarding chemical characteristics, disintegration and compost quality (ecotoxicity). According to Annex A.2 of the above-mentioned standard and judging by its composition, the product is to be considered as biodegradable.

Thus, the product is in full conformity with EN 13432.

Further, a lumbricid ecotoxicity test according to ASTM E 1676 based on

*AS 4736 'Biodegradable plastics - Biodegradable plastics suitable for composting and other microbial treatment', state of 2006,*

has been passed successfully.
